

Greetings from the Industry Engagement Task Group (IETG) of the Metabolomics Society!

The IETG is tasked with building relationships with companies who service the metabolomics community. This includes major instrument manufacturers, lab supply companies, software vendors, metabolomics service providers, publishers and more. If this effort is successful, this will provide a pipeline for interactions with the members of the Metabolomics Society and companies through our established Corporate Membership program and our Corporate Sponsorship program. If you are not familiar with our Corporate Membership program, please visit our website.

<http://metabolomicssociety.org/corporate-members/benefits-of-membership>

One of the biggest activities of the Metabolomics Society is our annual international Metabolomics Society conference. **This is the largest, longest-running conference dedicated to the field of metabolomics in the world.** We hosted successful meetings in Washington, D.C., Glasgow, Scotland, Tsuruoka, Japan and almost 1,000 delegates attended the most recent conference in San Francisco, CA. We are excited about our upcoming *12th Annual International Conference of the Metabolomics Society* in Dublin, Ireland. metabolomics2016.org

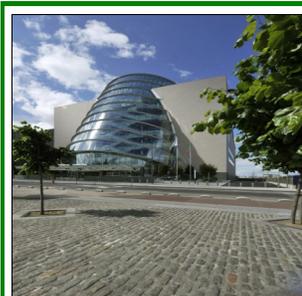

To learn more about the Metabolomics Society, become a Corporate Member and/or to become a sponsor at the 2016 Dublin, Ireland Conference, please contact **Sherie Howell**, Metabolomics Society Administrator with A-S-K Associates at showell@askusa.com or +1-913-972-5333.

We are building up a database of corporate contacts so that we can keep our corporate friends informed about upcoming events and activities of the Metabolomics Society. Please visit <http://www.metabolomicsmedia.org/corporate/> and complete the form so that we have the proper contacts for your company. We will be bouncing ideas and questions to our corporate partners and want to have the most appropriate contact information.

Volume 1, Issue 1

August 2015

The 2016 Dublin Conference Location

Convention Centre Dublin (CCD) at a glance ~

- 22 meeting rooms
- 2,000 seat auditorium with full theatrical stage and fly tower
- 4,500 square meters of exhibition space
- Theater capacity for 3,000 delegates in *The Forum*
- Banquet facilities for up to 3,000 guests
- Boardrooms, large and small halls and meeting rooms
- Cutting-edge technology and Wi-Fi throughout
- Six spacious foyer areas
- Stunning views of Dublin's city, bay and mountains on upper foyer levels
- Two large cargo lifts including a truck container lift
- Located at the heart of Dublin's transport hub and just 20 minutes from the Airport
- Within walking distance of many hotels, restaurants and attractions

About Us

The Metabolomics Society is dedicated to promoting the growth, use and understanding of metabolomics in the life sciences. Metabolomics is an emerging field of "omics" research concerned with the comprehensive characterization of the small molecule metabolites in biological systems. It can provide an overview of the metabolic status and global biochemical events associated with a cellular or biological system. As such, it can accurately and comprehensively depict both the steady-state physiological state of a cell or organism and of their dynamic responses to genetic, abiotic and biotic environmental modulation.

The Metabolomics Society is an independent, non-profit organization, governed by an elected Board composed of dedicated members of the metabolomics community but ultimately responsive to its members. The Metabolomics Society's vision is to become the premier organization devoted to the development of metabolism-based research. Constituted in 2004, the Metabolomics Society now has more than 1,000 members in more than 40 countries and publishes its own journal: *Metabolomics*.

Our Mission

1. To promote the growth and development of the field of metabolomics internationally
2. To provide the opportunity for collaboration and association among the workers in that science and in related sciences and connections between academia, government and industry in the field of metabolomics
3. To provide opportunities for presentation of research achievements and creation of workshops, and
4. To promote the publication of meritorious research in the field.

The Metabolomics Society, Inc. is not affiliated, associated, endorsed by, or in any way officially or unofficially connected with OMIC Group International (Nevada, USA) or any of that company's affiliates or subsidiaries.
